Project Title: Miffy, a Dutch Children's television show

I want to build a multipage website with a navigation tab. The navigation tag will be able to drop down with different options that will link to another page. Each page will be in primary colors, or the colors that are commonly used in the television show itself. Same with fonts.

<https://en.wikipedia.org/wiki/Miffy>

- 1. Home Page/ Introduction:** A quick introduction accompanied by photos. Photos should be easy to obtain because it is not only a book but also a claymation television show.
- 2. History:** The character's origins accompanied with sketches or early development. Timeline.
- 3. Picture Books:** Pictures and plots along with publication year.
- 4. Claymations:** Links to youtube videos along with some behind the scene.
- 5. Cast of Characters:** Accompanied with photos and names of the characters, along with their role.
- 6. Links and sources** (doesn't need to be a separate page)
